

Summary

Motivated Computer Science student with hands-on experience in software engineering internships and hands-on technical service work. Skilled in React, React Native, and Python, with exposure to on-premises AI solutions in a professional engineering environment. Combines a strong technical foundation with practical experience in equipment troubleshooting, client service, and problem-solving developed through pool maintenance and repair work. Eager to apply full stack development skills, a growing interest in AI-driven applications, and a strong work ethic to contribute to innovative software teams.

Skills

- React
- React Native
- Python
- On-Premises AI Solutions
- Mobile Development
- Web Development
- Software Engineering Fundamentals
- Equipment Diagnostics & Repair
- Client Relationship Management
- Problem Solving
- Time Management
- Team Collaboration

Experience

Dialed in Solutions - *Software Engineering Intern*

May 2026 - Present

- Develop and support mobile and web features for AI-driven products using React Native and React, contributing to front-end functionality across multiple platforms.
- Work with Python to support backend and AI-related development tasks, gaining hands-on experience with on-premises AI solutions.
- Collaborate with engineering team members to build, test, and refine software features, strengthening skills in full stack development and modern software practices.
- Gain exposure to real-world software engineering workflows, including code review, debugging, and iterative feature development in a professional team environment.

Aloha Pool and Spa Services LLC - *Pool Maintenance Technician*

September 2025 - Present

- Perform routine cleaning and chemical balancing for residential pool clients, ensuring safe and properly maintained pool conditions.
- Service and repair pool equipment across multiple properties, diagnosing issues and completing repairs to keep systems running efficiently.
- Manage a client route independently, maintaining consistent, high-quality service and building strong customer relationships.
- Apply problem-solving and technical troubleshooting skills to resolve equipment issues in the field.

Education

Southwestern Community College - *Bachelor's Degree in Computer Science (In Progress)*

2025 - Present

Valhalla High School - *High School Diploma*

Graduated 2025
